### Off-hours medical service for Karlsruhe

If you have a medical [emergency](#), call **112**. This number is valid in all of the EU and is free of charge.

Otherwise, during regular working hours, **your physician** is the one to consult for medical problems. If your physician is on holiday, he/she will have arranged for another doctor's office to take over.

If you need medical attention over the weekend, during holidays or at night and don't think you can wait to see your regular doctor, on-call services (**Bereitschaftspraxen**) are available. Call **116 117** to find the location of the nearest **doctor, dentist, Ob/Gyn or pediatrician** who is on-call. This is a German-wide telephone number – for service in Karlsruhe, use the Karlsruhe area code (0721). If necessary, a doctor can also make a house call. The on-call doctors and pharmacies are also listed in the daily newspaper as well as the free weekend newspapers.
